Geometry recovery
Photograph of hand-woven cloth
Illumination flattening (L* trend)
Rotation search (profile variance)
Autocorrelation lattice selection
Repeat extraction
Affine rectification (axis lattice vectors)
Lattice-anchor homography
Per-repeat re-registration
Mean repeat tile (archival record)
Loom representation and verification
Otsu draft and cell-grid search
Threading, tie-up, treadling (WIF, TC2)
Verification: fidelity, stability, round trip
Archive package: tile, draft, metrics
